### We design experiences. We build relationships.

For over 40 years, Target Motivation has stood for excellence in the world of corporate communication and events. With our head office in Venice and branches in Rome and Milan, we operate both in Italy and internationally—bringing innovation, creativity, and precision to every project, progetto.

Our story is built on unique experiences, strong relationships, and a passion that drives us to go beyond expectations.

We're structured into dedicated business units, each specialized in a specific area. This allows us to offer tailored services—whether it's corporate communication, B2B event planning, incentive program creation, congress organization, product launches, or immersive event setups.

Our strength lies in our ability to listen, analyze, and interpret client needs, transforming them into impactful, creative, and concrete solutions.

# OUR MANIFESTO

### See beyond. Stay grounded.

We **strive to be different**—to shape a future that bears our signature.

We **believe** in a future that's compelling, inspiring, and human-centered.

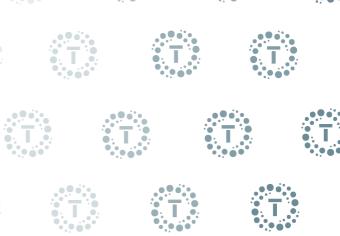

We **aim to spark the satisfaction** of new perspectives and the wonder of discovering different ways of thinking and seeing.

We're a united team, believing in the **power of connection** and the potential to share ideas, visions, and experiences. To us, the future is within reach—only if it's accessible to everyone.

**Technology** today allows what was unthinkable just a few years ago. Imagine what we'll **achieve tomorrow**.

### Italian Destination Management Company.

At **Target Motivation**, we tell the story of Italy through authentic experiences, designed for those who truly want to know it—not just visit it.

For over forty years, we have been supporting international companies in creating **incentive trips** and **MICE projects** that inspire, motivate, and strengthen relationships, by developing tailor-made solutions.

Whether it's an incentive, a congress, a convention, a product launch, or a meeting, we carefully select the ideal setting throughout Italy: a boutique hotel, a charming hotel, a leading hotel, or a business hotel—always guaranteeing quality, service, and personalization.

The same goes for the **conference center or the event venue**: a historic palace for a gala dinner, a castle, or a post-industrial space like a former workshop or hangar for high-impact events.

Every choice stems from carefully listening to the client's needs, to build a consistent and memorable experience from start to finish.

Thanks to our widespread presence across all Italian regions, we can open the doors to an **authentic Italy**, made of small gestures, homegrown flavors, and places far from the spotlight.

We complete each project with a thorough planning of **ground services**: transfers, welcoming, logistics, and complementary experiences, always aligned with the event's quality standards.

With us, an **incentive trip** becomes a chance to **experience Italy like a local**, with the excitement of discovery and the peace of mind that comes from relying on those who truly know the country.

FONDAZIONE GENERALI
THE HUMAN SAFETY NET

Dear Giorgia. On behalf of myself, Chris, Stephen, and our entire company, we would like to send our sincerest thank you. Everything was perfect; starting with the many boat transfers, including all of the additions, changes, and flight delays, you and the transfer hosts made it look easy and we are so grateful. The scavenger hunt was a HUGE success, everyone loved it so much and had so much fun! Once again, the organization was perfect, it was really a memorable experience for all of our employees, and they are all still talking about it. The after-party...where do I even begin?! This was so above and beyond and completely exceeded our expectations. It felt like a true transformation into the magical world of the Venetian Carnival. Everyone was so surprised and definitely did not expect something so grand and spectacular. Thank you, Antonia, her team, and all of the actors for delivering the most perfect event for us which will be talked about among our employees for years to come. I've heard "best party I've ever been to" quite a few times from our employees. It was so, so special and truly left everyone (including myself!) completely speechless. Last, but certainly not least, the tech team. The tech team was so professional and overall fantastic. The set-up was perfect and exactly what we needed for our meetings. Thank you to Marco and the entire team for 3 days of exceptional work. Overall, we couldn't have done this without you, and we are so grateful for your help and seamless organization. Thank you and the entire Target Motivation team for helping us

execute such an amazing event in Venice. I hope I can come back to

visit this beautiful city again soon.

With sincere gratitude.
